# **DISTRICT PROFILE**

## 1.0 (a) District Administrative Set-up

Muzaffarnagar district, covering an area of 2958.08 sq. km lies in the northwest of Uttar Pradesh. It is bounded on the north by the Saharanpur district, Haridwar district of Uttaranchal in the northeast, Bijnor district in the east, Meerut district in the south and Shamli district in the west. The eastern boundary of the district with Bijnor district is divided by river Ganga. For administrative purposes, the district has been sub-divided into 04 tehsils and 9 developmental blocks. It is part of Saharanpur division. The city of Muzaffarnagar is the district headquarters. This district is the part of National Capital Region. Muzaffarnagar City is situated midway on Delhi – Haridwar/Dehradun National Highway (NH 58), the city is also well connected with the national railway network. The city is located in the middle of highly fertile upper Ganga-Yamuna Doab region and is very near to the New Delhi and Saharanpur, making it one of the most developed and prosperous cities of Uttar Pradesh. This city is part of Delhi Mumbai Industrial Corridor (DMIC) and Amritsar Delhi Kolkata Industrial Corridor (ADKIC). It is the principal commercial, industrial and educational hub of Western Uttar Pradesh. Muzaffarnagar is popularly known as **“The Sugar Bowl of India”** The economy of the district is mainly based on agriculture; sugarcane, paper and steel industries. Muzaffarnagar is now part of National Capital Region.

### History

The town was founded in 1633 near the site of an ancient town, Sarwat, by the son of a Mughal Commander Sayyid Muzaffar Khan during the reign of Shah Jahan. In 1901, during the British Raj, it was district in the Meerut Division in United Provinces of Agra and Oudh.

### Language

Khari Boli, a prestigious dialect of Hindi, is the native tongue of the city which resembles a lot with the Haryanvi dialect of Hindi.

### Religion in Muzaffarnagar (2011)

Hinduism (55.79%), Islam (41.39%), Jainism (2%), Other (2%)

## **Economy**

Sugar and jaggery production are important industries in the district. As a result of the farming activities around, the city is an important hub of jaggery trading business. Muzaffarnagar is an important industrial city with sugar, steel and paper being the major industries. District Muzaffarnagar has 8 sugar mills and 28 Pulp & paper Mills. Many steel companies market their steel products, including angles and bars, through media in the country.

More than 40% of the region's population is engaged in agriculture. According to Economic Survey Muzaffarnagar has the highest agricultural GDP in Uttar Pradesh, as well as UP's largest granary. Despite its economic strength, the city has been absent from the map of the foreign and modern business establishments.

## 1.0 (b) Local Institutions

## 1.0 (c) Natural Resources

- **Water Bodies**

**Drainage: -**

Muzaffarnagar district is drained by rivers Ganga in the east and Hindon in the west. In fact, the drainage pattern of the district is strictly governed by these two major rivers Ganga and Yamuna, which forms western boundary of the Shamli district. Both the rivers in their respective course flow more or less north to south. Major tributary of Ganga is Solani river and that of Yamuna is Hindon and Kali Nadi.

**Wetlands: -**

There is are 632 wetlands identified in District Muzaffarnagar in the respective 09 Developmental Blocks.

**Rivers: -**

In district Muzaffarnagar, there are 04 rivers namely Ganga (Length-38.5 Km.), River Kali West (Length-64 Km.), River Kali East (Length-18Km.) and River Hindon (Length-76Km.).

**Basin and Sub-Basin: -**

The western half of the district occupies part of Yamuna basin and eastern part of the district the northern part of Ganga basin.

- **Availability of Water Resources**

Tubewells / Borewells: - 66237

Canals: - 943 km

- **Forest Coverage**

Muzaffarnagar Social Forestry Division, Muzaffarnagar is situated in western Uttar Pradesh, whose boundaries meet with the states of Uttarakhand & district Bijnor, Saharanpur, Shamli & Meerut. The total area of the district is 4008 Sq. Km out of which 66.11 Sq. Km is forest, which is 1.65 percent of the total area of the district (ISFR-2019 report)

The forest area in Muzaffarnagar social Forestry Division basically falls in "Hastinapur Wildlife Sanctuary" which was formed in 1986. Area of forest under sanctuary is 2599 ha. which includes reserve forest, Gram Sabah Land and Wetlands. The River Ganges forms the natural boundary with district Bijnor. It's a home for aquatic wildlife specially Gangetic Dolphin, Gharials, otters, Swamp deer etc.

The forest area in Muzaffarnagar Division comes under two categories viz. Khola (dry sandy soil) and Khadar (water retentive soil). In Khola areas we have forest of Khair, Seesham, Katsagaun, Siras etc. In Khadar areas we have Jamun, Arjuna, Kanji, Pakad etc. by plantations. Khadar area is also covered with Typha, Sacrum & Khas Grasses which forms a proper habitat for wild animals.

There is a wetland named "Haiderpur Wetland" in Muzaffarnagar Social Forestry Division at Bijnor, Barrage of Ganga. It is 40 Km. away from Muzaffarnagar city. It was developed as site for Bird Conservation (300 species identified) as well as ecotourism destination. A proposal for "Ramsar Site" has also been sent to GOI. At the same site we started "Dolphin Safari" for the conservation and awareness for the tourist and local people.

The Division consists of four ranges viz. Muzaffarnagar, Budhana, Jansath and Morna. Two ranges Jansath and Morna come in "Hastinapur Wildlife Sanctuary" area.

The Hastinapur Wildlife Sanctuary is a habitat of mammals-Leopard, jungle cat, cheeta cat, monkey, Langur, water cat, Bijnor, Jackal, Wolf, Hyena, Mongoose, Chinkara, Deer, Blue bull, Swamp deer, Sambhar, Cheetal, Hog deer, Wild boar, Porcupine, Rabbit & Chachunder, Bat, Reptiles- Turtles, Tortoise, Monitor Lizard, Python, Rat snake, Cobra, Crait, & Viper, Amphibians-Crocodile & Gharial, Avifauna- Brown teetar, Black teetar,

Bater, Luva bater, Peacock, Bhat teetar, Hariyal pigeon, Dhavar, Chitrokha, Small Fakhta, Nakta, Spot bill, Bagula, Karchia bagula, Surkhia, Luglug Crane, Falcon, Dhebia cheel, white vultures, Koel, wild owl, Owl, Chapka, Neelkanth, Dhanesh, Woodpeaker, Golden oriole, Wild myna, Bhujunga, Ababill, Common crow, wild crow, Red vented bulbul, Seven sisters, Ashi rain babler, Magpie Robin, Baya Red munia, Parrot Migratory birds- Bar headed goose, Brahmni duck, Pintail, Common teal etc.

The main species of this division are Sheesham, San, Teak, Khair, which provide fodder to local residents for there are many species such as Sheesham (*Dalbergia sissoo*, Roxb.), Khair (*Acacia catechu*, willd), Haldu (*Adina cordifolia*, Hook.F.), Semal (*Bombax ceiba*), Kanju (*Holoptelea integrifolia*, Planch.), Sagoon 'Teak' (*Tactona grandis*), Mulberry (*Morus alba*), Paper mulberry (*Brouhonaceae papyrifolia*), Varma Bamboo (*Bambusa arundinacea*), Ghamhar (*Malina arborea*), Arjun (*Terminalia Arjuna*, W.&A.) Amaltas (*Cassia fistula*, Linn), Ashok (*Polyalthia longilfolia*, Thw), Aam (*Mangifera indica*, Linn), Awala (*Embelica officinalis*, Gaetrn), Imali (*Tamarindus indica*, Linn), kadam (*Anthocephalus cadamba*, (Mig) ), Kanji (*Pongamia pinnata*, (Linn.) Piers), Katsagaun (*Haplphragma adenophy*, (Wall) Dop) Kanak Champa (*Pterospermum acerifolium*, willd), Kala siras (*Albazia lebbek*, Roxb), Khair (*Acacia catechu*, willd), Gotel (*Trewia nudiflora*, Linn), Guler (*Ficus glomerata*, Roxb), Jarul (*Lagerstroemia flosreginae* Retz), Jungle Jalebi (*Pithececobium dulce*, Benth), Jacaranda (*Jacaranda mimosifolia* D.Don), Dhak (*Butea monosperma* (Lamk)Taub), Tun (*Toona ciliata* Roem), dudhi (*Holarrhena antidysenterica* Will), Bargad (*Ficus bengalensis* Linn), Baheda (*Terminalia bellerica* Roxb), Bakayan (*Melia azaderach* Linn), Bel (*Aegle marmelos* Corr), Ber (*Zayphus mauritiana* Lam), Molshree (*Mimusops elengi*), Eucalyptus (*Eucalyptus hybrid* L Herit), Sahjan (*Moringa oleifera* Lamk), Popular (*Populus Spp Peltophorum Spp Parkinsonia aculeate* Linn).

## 1.0 (d) Geography & Demography\*

The entire Muzaffarnagar district is a flat terrain falling in upper Ganga plain. The highest point in the district is 222.00 m (amsl) in the north and the lowest 201.00 m (amsl) in the south, giving rise to an average slope of about 0.40 m/ km towards south. The district can be sub divided into five geographic units.

**a. Sand Bars:** It occurs along the courses of Ganga, the characteristic sand bars are changing dynamically during the floods. b

**b. Flood Plain:** It is a flat, low lying poorly drained area adjacent to Ganga and Yamuna rivers forming the flood plains frequently flooded during monsoons season.

**c. Ravines:** In the western part of the district, this unit is characterised by the deep gullies along the rivers Kali and Hindon. This is probably due to the erosion of unconsolidated material by localised surface run off forming channels and ultimately giving rise to undulating topography and hence the formation of ravines.

**d. Younger Alluvial Plains:** The gently sloping (southward) and slightly undulating terrain having ox-bow lakes, back swamp and paleo-channels forms this geomorphologic unit along the western bank of Ganga river in the district. This unit is also called Khadar. In the eastern part of the district, the Ganga Khadar (west of river Ganga) is widest (about 20 Kms) in the north and gradually narrows down to 2 km width around the place called Bhokerhedi.

**e. Older Alluvial Plain:** Older alluvial plain may be divided into two parts-

(i) Tract between Ganga canal and Kali river: This is an upland with general slopes from east to west and more considerable than the regional slope of the area i.e. north to south. It is marked by natural levees as sand belt stretching north to south with heights ranging from 3 to 18 m.

(ii) Tract between Kali and Hindon rivers: Between these two rivers, the upland slopes down to both rivers and marked by broken grounds which is more pronounced in southern part of the district than that in the northern part.

The soils of the district are formed by the transport of silt carried by the two rivers, Ganga and Yamuna. The soils are composed of Pleistocene and sub-recent alluvial sediments transported and deposited by river action from the Himalayan region. These alluvial deposits

are unconsolidated. There are patches of saline and alkaline lands called “Bhur” areas mostly along the bank of Yamuna and the bank of upper Ganges canal. The stretches of low land along these rivers are called “khadars”. The khadar of Ganges differs from that of Yamuna, in not having wide stretches of settled countries and in having a better clay deposit.

**\*Source: - Central Ground Water Board**

### **1.0 (e) Landuse Pattern\***

Forest area	:	240.54 sq.km.
Net area sown	:	2195.17 sq.km.
Cultivable Area	:	3177.69 sq.km.

**\*Source: - Central Ground Water Board.**

### **1.0 (f) Climate**

The normal annual rainfall in the district is 869 mm. About 737 mm, 80% of rainfall takes places from June to September. During monsoon surplus water is available for deep percolation to ground water. The climate is sub humid and it is characterised by general dryness except in the brief period during the monsoon season. Summer is hot and winter is pleasant cold season. There is a meteorological observatory at Meerut, which may be taken as representative of meteorological condition. May is the hottest month. The mean daily maximum temperature is about 40°C, mean daily minimum temperature is about 24°C and maximum temperature some time rises to 44°C. With the onset of southern monsoon by the end of June, there is appreciable drop in temperature. January is the coldest month with mean daily temperature at about 20°C and mean daily minimum at 7°C. The air is dry during the major parts of the year. In southwest monsoon season, the air is very humid and April and May are usually driest months. The mean monthly relative humidity is 67%. The mean wind velocity is 6.70 Km.p.h. The potential evapotranspiration is 1545.90 mm.

## **2.0**

# **INDICATIVE GAP ANALYSIS AND ACTION PLANS FOR COMPLYING WITH WASTE MANAGEMENT RULES**

## (i) Solid Waste Management

### NAGAR PALIKA PARISHAD, MUZAFFARNAGAR

#### a. Current status related to solid Waste management

S. No.	Urban Local bodies	No of Wards	No of Households	Population	Solid Waste Generated per day
1	Nagar Palika Parishad, Muzaffarnagar	50	82246	392768	160 T.P.D.

#### b. Identification of gaps and Action plan:

S. No.	Action points For villages / blocks/ town municipalities / City corporations	Identification of gap	Action Plan			Responsible agencies	Timeline for completion of action plan
			Action Point	Budget Required	Budget Available		
1.	Segregation						
(i)	Segregation of waste at source	No Gap	Door to door agencies had been deployed and It is doing regular basis	Please add the budget detail in amount. Budget Not Required	NA	ULB	100% Complete and regular followed
2	Sweeping						
(i)	Manual Sweeping	No Gap	Action plan for reducing gap regular basis inspection and checking beat of sweeper	Please add the budget detail in amount. Budget Not Required	NA	ULB	100% Complete and regular followed

(ii)	Mechanical Road Sweeping & Collection	Mechanical Collection YES, Mechanical Sweeping is not being done.	In Process	Budget Not Required	Please add the budget detail in amount. NA	ULB	Partial Complete remain will complete in November, 2022
<b>3</b>	<b>WasteCollection</b>						
(i)	100% collection of solid waste	No Gap	Mention the - action point	Budget Not Required	Please add the budget detail in amount.	ULB	100% Complete and regular followed
(ii)	Arrangement for door to door collection	No Gap	Mention the - action point	Budget Not Required	Please add the budget detail in amount.	ULB	100% Complete and regular followed
(iii)	Waste Collection trolleys with separate compartments	No Gap	Mention the - action point	Budget Not Required	Please add the budget detail in amount.	ULB	100% Complete and regular followed
(iv)	Mini Collection Trucks with separate compartments	No Gap	Mention the - action point	Budget Not Required	Please add the budget detail in amount.	ULB	100% Complete and regular followed
(v)	Waste Deposition centres (for domestic hazardous waste)	fill the required cell -	Waste Deposition centres (for domestic hazardous waste) is available	Budget Not Required	Please add the budget detail in amount.	ULB	100% Complete and regular followed
<b>4.</b>	<b>Waste Transport</b>						
(i)	Review existing infrastructure for waste Transport.	No Gap	Mention the - action point .	Budget Not Required	Please add the budget detail in amount.	ULB	100% Complete and regular followed
(ii)	Bulk Waste Trucks	6 Trucks Available	Mention the - action point .	Budget Not Required	Please add the budget detail in amount.	ULB	100% Complete and regular followed
(iii)	Waste Transfer points	No Gap	Mention the action point .	Budget Not Required	Please add the budget detail in amount.	ULB	100% Complete and regular followed
<b>5</b>	<b>WasteTreatment and Disposal</b>						

(i)	Wet-waste Management: On-site composting by bulk waste generators (Authority may decide on requirement as per Rules)	No Gap	Mention the action point .	Budget Not Required	Please add the budget detail in amount.	ULB	100% Complete and regular followed
(ii)	Wet-waste Management: Facility(ies) for central Biomethanation/Composting of wet waste.	No Gap	Mention the action point .	Budget Not Required	Please add the budget detail in amount.	ULB	100% Complete and regular followed
(iii)	Dry-Waste Management: Material Recovery for dry-waste fraction	MRF centre are required for Dry Waste fraction.	MRF Centre. Mention about the DPR.	Budget Not Required	Please add the budget detail in amount.	ULB	Mention the timeline also. One Year
(iv)	Disposal of inert and non- recyclable wastes: Sanitary Landfill	No Gap	Mention the action point .	Budget Not Required	Please add the budget detail in amount.	ULB	100% Complete and regular followed
(v)	Remediation of historic / legacy dumpsite	No Gap	Mention the action point .	Budget Not Required	Please add the budget detail in amount.	ULB	100% Complete and regular followed
(vi)	Involvement of NGOs	No Gap	Mention the action point .	Budget Not Required	Please add the budget detail in amount.	ULB	100% Complete and regular followed
(vii)	EPR of Producers: Linkage with Producers /Brand Owners	Linkage with Producers/ Brand Owners Required	Mention the action point .	Budget Not Required	Please add the budget detail in amount.	ULB	Partial Complete remain will complete in March, 2022
(viii)	Authorisation of Waste Pickers	Yes Mention about the gap.	Mention the action point .	Budget Not Required	Please add the budget detail in amount.	ULB	100% Complete Mention the timeline if there is gap.
(ix)	Preparation of own by-laws to comply with SWM Rules 2016	Yes Mention about the gap.	Mention the action point .	Budget Not Required	Please add the budget detail in amount.	ULB	100% Complete Mention the timeline if there is gap.

## NAGAR PALIKA PARISHAD, KHATAULI, MUZAFFARNAGAR

### a. Current status related to solid Waste management

	Urban Local bodies	No of Wards	No of Households	Population	Solid Waste Generated per day
1	Nagar Palika Parishad, Khatauli	25	14728	72949	22.00 MT

### b. Identification of gaps and Action plan:

S. No.	Action points For villages / blocks/ town municipalities / City	Identification of gap	Action Plan			Responsible agencies	Timeline for completion of action plan
			Action Point	Budget Required (in Lakhs)	Budget Available (in Lakhs)		
<b>1.</b>	<b>Segregation</b>						
(i)	Segregation of waste at source	50 % Waste Segregated at Source and 50% waste not Segregated	Working on Reamaining 50% waste of total waste	20.00 Lakhs per month	NIL	NPP Khatauli	30 <sup>th</sup> June 2023
<b>2</b>	<b>Sweeping</b>						
(i)	Manual Sweeping	Manual sweeping action plan is completed	Manual Sweeping 100 %	Not Required	NIL	NPP Khatauli	Regular
(ii)	Mechanical Road Sweeping & Collection	Mention the Gap in detail. 100%	Mechanical Sweeping is not done due to lack of fund & technical equipment	50.00	NIL	NPP Khatauli	30 <sup>th</sup> June 2024
<b>3</b>	<b>Waste Collection</b>						
(i)	100% collection of solid waste	100% MSW is being collected through door to door	100% Solid Waste collected	Not Required	YES	NPP Khatauli	On daily basis
(ii)	Arrangement for door to door collection	100% of wards had been covered by authorized agencies	100% Door to Door collected	Not Required	YES	NPP Khatauli	Regular

(iii)	Waste Collection trolleys with separate compartments	This work is also done by authorized agencies and trolleys with separate compartment is also being provided by authorized agencies	Mention the action point .  Arrange of Funds	Not Required	YES	NPP Khatauli	Regular
(iv)	Mini Collection Trucks with separate compartments	No Gap	Mention the action point . Arrange of Funds	Not Required	YES	NPP Khatauli	Completed
(v)	Waste Deposition centres (for domestic hazardous waste	Mention the Gap. -	One Waste Deposition centres (for domestic hazardous waste is available	Not Required	YES	NPP Khatauli	On Regular basis
<b>4.</b>	<b>Waste Transport</b>						
(i)	Review existing infrastructure for waste Transport.	No Gap	Mention the action point . Arrangement of fund	Not Required	NIL	NPP Khatauli	30 <sup>th</sup> June 2023
(ii)	Bulk Waste Trucks	One bulk Truck Available	Mention the action point . Arrangement of fund	35.00 Lakhs	NIL	NPP Khatauli	Completed
(iii)	Waste Transfer points	we have one waste transfer point (MRF Centre) and two MRF Point Required	Arrangement of fund and land	Not Required	NIL	NPP Khatauli	Completed
<b>5</b>	<b>Waste Treatment and Disposal</b>						
(i)	Wet-waste Management: On-site composting by bulk waste generators (Authority may decide on requirement as per Rules)	There is no bulk waste generator in Nagar Palika Parishad Khatauli	Mention the action point . -	Not Required	NIL	NPP Khatauli	Also mention the timeline if there is a gap. -

(ii)	Wet-waste Management: Facility (ies) for central Biomethanation/ Composting of wets waste.	On site Composting Plant required	Composite Plant required	90.00 Lakhs	NIL	NPP Khatauli	Mention the timeline. Completed and doing this on regular basis
(iii)	Dry-Waste Management: Material Recovery for dry-waste fraction	One MRF centre is working and One MRF centre are required for Dry Waste fraction.	Arrangement of Fund and Land	50.00 Lakhs	NIL	NPP Khatauli	Mention the timeline for Gap achieved
(iv)	Disposal of inert and non-recyclable wastes: Sanitary Landfill	-	-	YES Please add the required budget in amount.	N.A.	-	-
(v)	Remediation of historic / legacy dumpsite	Near About 2000 Ton Legacy Waste at Dumpsite	Mention the - action point	4.00 Lakhs per month	NIL	NPP Khatauli	Also Mention the timeline.
(vi)	Involvement of NGOs	N. A.	-	N. A.	NIL	-	-
(vii)	EPR of Producers: Linkage with Producers /Brand Owners	-	Linkage off all Producers/Br and Owners or their PROs for collection of plastic waste	N. A.	NIL	NPP Khatauli	-

## DEVELOPMENT AUTHORITY, MUZAFFARNAGAR

### a. Current status related to C & D Waste

Details of Data Requirement	Present Status
Total C & D waste generation in MT per day (As per data from Municipal Corporations / Municipalities)	2.95 MT/Day
Does the District has access to C&D waste recycling facility?	Not Available

### b. Identification of gaps and Action plan:

S. No.	Action points for blocks / town municipalities / City corporations	Identification of Gaps	Action Plan			Responsible agency	Timeline for completion of action plan
			Action Point	Budget Required (in Lakhs)	Budeget Available (in Lakhs)		
1.	Arrangement for separate collection of C&D waste to C&D waste deposition point.	C&D waste deposition Point Available	Action plan for every local body in district. District may indentify common C&D Waste deposition points.-	Not Required	N.A.		
2.	Whether local authority have fixed user fee on C&D waste and introduced permission system for bulk waste generators who generate more than 20 tons or more in one day or 300 tons per project in a month?	There is also a notified procedure for those who generates more than 20 MTD C&D waste.	- Mention about action point.	Not Required	N.A.		
3.	C&D recycling Facility	There is not Facility for C&D recycling	-	Not Required	N.A.		
4.	Usage of recycled C&D waste in non- structural concrete, paving blocks, lower layers of road pavements, colony and rural roads	Facility for Usage of recycled C&D-- waste in non structural - concrete, Paving blocks, lower layers of	-	Not Required	N.A.		

		road pavements, colony and rural roads					
5.	ICE on C & D waste management	IEC Activity have been Done in nagar palika parishad shamli Area	-	Not Required	N.A.		

Action plan for C&D waste management should cover all village panchayats/ blocks/ town municipalities / City corporations. Action plan need not be prepared in Tabular form as above, however all the components mentioned should be addressed for overall C&D waste management. Action plan may dwell upon other relevant action points not mentioned in above template. If required budgetary requirement and provisions may also be mentioned

## (iv) Bio Medical Waste Management

### a. Current Status related to biomedical waste

Inventory of BMW in the District	Quantity
Total no. of Bedded Healthcare Facilities	<b>1. Government</b> (District Male & Female Hospital -02, CHC-30, PHC-45, Urban PHC-06) <b>Total-83</b> <b>2. Private</b> (Hospitals-169) <b>Total-169</b> <b>Grand Total – 252 (Bedded Facilities)</b>
Total no. of non-bedded HCF	<b>1. Government</b> (Sub Centers-286) <b>2. Private</b> (Clinic-122, Lab/Pathology Lab-76) <b>Total-198</b> <b>Grand Total – 484 (Non Bedded Facilities)</b>
No. of HCFs authorised by SPCBs/PCCs (UP Pollution Control Board, Muzaffarnagar)	954
No of Common Biomedical Waste Treatment and Disposal Facilities (CBWTFs)	02 (1. Senergy waste management Pvt. Ltd. Meerut / 2. Environ Waste Connection LLP Ghaziabad) <b>Note: There is no CBWTFs in District Muzaffarnagar but all are linked with CBWTF Meerut &amp; Ghaziabad.</b>
Capacity of CBWTFs	1. Senergy waste management Pvt. Ltd. Meerut. <b>(298.60 Kg Per Day)</b> 2. Environ Waste Connection LLP Ghaziabad <b>(110.90 Kg Per Day)</b>
No. of Deep burials for BMW if any	51
Quantity of biomedical waste generated per day	409.50 Kg/Day (Approx)
Quantity of biomedical waste treated per day	409.50 Kg/Day (Approx)

### b. Identification of gaps and Action plan:

S.No.	Action points For village panchayats/blocks/municipalities/corporations	Identification of gap	Action plan			Agencies Responsible	Target time for Compliance
			Action Point	Budget Required (in Lakhs)	Budget Available (in Lakhs)		
1.	Inventory and Identification of Healthcare Facilities	218 HCF including clinics, Hospitals, Pathology Labs etc generating Bio Medical waste do not have	1. A lot of numbers of Govt. HCF have not applied for due to some unknown	Not required	NA	UP Pollution Control Board/Chief Medical Officer (Office)	Inventory and Identification of Healthcare facilities is updated

		authorization by Regional Office UP Pollution Control Board, Muzaffarnagar. Notice have been issued to all defaulter HCF (Hospitals/Clinics/Labs/CHC/PHC) etc	reasons or non finalization of tendering process for the proper disposal of BMW. 2. Notice issued to all defaulter.			/Health Deptt.	time to time. Latest inventory for HCF is updated till 31 <sup>st</sup> December 2022. Target time – 31 <sup>st</sup> March 2023
2	Adequacy of facilities to treat biomedical waste	No gap	Two CBWTF are currently operational in District Muzaffarnagar that cover the total Bio medical waste generated per day	Not required	NA	Health Deptt.	Completed and Achieved
3	Tracking of BMW	Bar Code system is implemented by both of CBWTFs (2 Nos)	Plan for implementation of barcodesystem by all HCFs and CBWTFs in the district	Not Required	NA	Health Deptt.	Regular activity
4	Awareness and education of health care staff	Whether training has been organized For all stakeholders?	Action plan for awareness programmes And training to healthcare staff and ULB officials.: Last educational/Awareness programme conducted on 30 <sup>th</sup> December along with UPPCB and Dist. Magistrate	NA	NA	Hospital Management committee and District Environment Committee	Regular Activity
5	Adequacy of funds	Whether adequate	Ensuring adequate				

		funds allocated to Government healthcare facilities for bio-medical waste management by State Govt.?	funds to Govt. Health Care Facilities for BMW.	Not Required	3537370.00	Health Deptt.	Completed
6	Compliance to Rules by HCFs and CBWTFs	Regular inspection is carried out by R.O. UPPCB and Chief Medical Officer Team	Regular inspection of HCF and CBWTFs is done by R.O. Muzaffarnagar along with monitoring of the above mentioned agency is included in distt. level monitoring committee.	Not required	NA	BMW management committee at every DMH/DWH/CHC/PHC	Comply /Regular activity
7	District Level Monitoring Committee	Check whether District Level Monitoring Committee has been constituted and meetings are being organised?	The meeting of distt. level monitoring committee held every month in regard to BMW management	Not Required	NA	Distt. Magistrate/Chief Medical Officer (Health Deptt.)	Distt Level Monitoring Committee has been constituted and meetings are being organised periodically. Last meeting of Distt. Level Monitoring Committee was held on 30.12.2022.

8.	Waste water Treatment	Bedded HCFs are required to install ETPs for waste water treatment as well as sewage water treatment.	All HCFs are regularly inspected by R.O. UPPCB team.	Not Required	NA	HCF/UP Pollution Control Board	10 Hospital have installed waste water treatment plan last six month.
----	-----------------------	---	--	--------------	----	--------------------------------	---

SPCBs/PCCs is the prescribed authority to ensure implementation of BMW Management Rules, 2016. However, Rules also provides mandates to health department to monitor compliance. Hence Action plan for BMW waste management should cover access to biomedical waste management in entire geographical area of the district village panchayats/ blocks/ town municipalities / City corporations. Action plan need not be prepared in Tabular form. SPCBs/PCC should be part of action plan. Action plan may dwell upon other relevant action points not mentioned in above template. If required budgetary requirement for government HCFs may also be mentioned

## (v) Hazardous Waste Management

### a. Current Status related to Hazardous Waste Management

Major source of hazardous waste (HW) is industries and facilities located in the districts, who are required to be regulated under Water (P&CP) Act 174, Air (P&CP) Act 1981 and E(P) Act, 1986 and the Rules notified thereof. Many commercial establishments like automobile repair shops, paint workshops, stores, etc. may also generate small quantities of hazardous waste. The district administration should be aware of the type of hazardous waste generation in their district and adequacy of facilities for safe handling and disposal within or outside District. Linkage of district administration with common TSDFs in the State is necessary to establish system for safe disposal of domestic hazardous waste.

**Regional Office, U.P. Pollution Control Board, Muzaffarnagar**

Detail of Data Requirement	Present Status
No. of Industries generating HW	55 [Nos.]
Quantity of HW in the district	2651.2 [MT/Annum]
(i) Quantity of Incinerable HW	18.0 [MT/Annum]
(ii) Quantity of land-fillable HW	2625.0 [MT/Annum]
(iii) Quantity of Recyclable/ utilizable HW	8.2 [MT/Annum]
No. of captive/common TSDF	Sent to common TSDF 1. Ghaziabad 2. Kanpur Dehat Note : No TSDF facility Distt. Muzaffarnagar.
Contaminated Sites or probable contaminated sites	Nil (None)

### b. Identification of gaps and action plan:

S. No.	Action points	Identification of Gaps	Action Plan			Responsibility	Timeline for completion of action plan
			Action Point	Budget Required (in Lakhs)	Budget Available (in Lakhs)		
1.	Regulation of industries and facilities generating Hazardous Waste	55 Hazardous waste industries are identified and authorized by UPPCB.	Regular inspection are also carried out by R.O. Muzaffarnagar UPPCB.	Not Required	N.A.	UPPCB	Regular Activity

2.	Establishment	All industries have temporary leakproof storage chambers to temporarily stores in the premises, the hazardous waste is later transferred to a common TSDF facility either Kanpur Dehat or Ghaziabad	There is no other source of hazardous waste identified in Distt. Muzaffarnagar	Not Required	N.A.	Local authority/UPPCB	-
3.	Training of workers involved in handling/recycling/disposal of HW	Training programme	Organize training programme	Not Required	N.A.	Deptt. of Industries and UPPCB	Regular Activity
4.	Availability /Linkage with common TSDF or disposal facility	55 Units	linkage of all units	Not Required	N.A.	Deptt. of Industries /UPPCB	Industries are generating hazardous waste in distt. Muzaffarnagar disposing it through TSDF.
5.	Contaminated Sites	There is no contaminated site in District Muzaffarnagar	Not Required	Not Required	N.A.	UPPCB	Nil

SPCBs/PCCs is the prescribed authority to ensure implementation of Hazardous and Other (Management, Handling and Transboundary Movement) Rules, 2016. Rules also mandates department of industries to ensure training to workers involved in recycling and handling of hazardous wastes. Action plan for HW waste management should cover HW inventory in the district, check whether rules are implemented effectively, a systems for monitoring compliance needs to be in place.

Action plan need not be prepared in Tabular form. SPCBs/PCC should be part of action plan. Action plan may dwell upon other relevant action points not mentioned in above template.

## (vi) E-Waste Management

### a. Current Status related to E-Waste Management

Detail of Data Requirement	Present Status
Inventory of E-Waste in MT/year	<b>26558.00 MT/Year</b>
Collection centers established by ULBs in the District	There is no MRF centre installed by responsible agency
Collection centers established by Producers or their PROs	There are no producers
No authorized E-Waste recyclers/Dismantler	Recycler – 07 Dismantler – 02

### b. Identification of gaps and action plan:

S. No.	Action points	Gaps in implementation	Action Plan			Responsible agency	Timeline for completion of action plan
			Action Point	Budget Required (in Lakhs)	Budget Available (in Lakhs)		
1	Inventory /Generation of E-Waste/Bulk-waste generators	There are 7 bulk waste generator in Muzaffargarh	Completion of Inventory	Not Required	N.A.	UPPCB	Not required
2	E-Waste collection points	There is no one E-waste collection centre near either city Muzaffargarh or District.	NA <a href="#">Mention about action point.</a>	Not Required	N.A.	UPPCB	30 <sup>th</sup> June 2023
3	Linkage among Stakeholders to channelize E-Waste	Linkage to be done	Linkage with stakeholders	Not Required	N.A.	UPPCB	

4	Regulation of illegal E-Waste recycling/dismantling	Regular drive conducted by R.O. UPPCB Muzaffarnagar in District	To ensure compliance regular discussion related to E-waste with Recycler/Dismantler is in progress	Not Required	N.A.	UPPCB	No illegal E-waste recycling/Dismantling conducted or found operational
5	Integration of informal sector	Whether mechanism exists for bringing informal sector into main stream in collection and recycling of E-Waste	Evolve mechanism	Not Required	N.A.	UPPCB	--
6	Awareness and education	Regular activity, latest awareness programme conducted by R.O. UPPCB Muzaffarnagar time to time	Already in place	Required	N.A.	UPPCB	Regular activity/time to time

CPCB is the prescribed authority to grant Extended Producer Authorisation to various Producers of Electrical and Electronic Equipment being placed on market. Targets for collection of their E-Waste is given to each Producer. Every Producer should have installed a network of collection centres pan India, accordingly, every district should be covered. SPCBs/PCCS are given mandate to ensure implementation of EPR authorisation. Therefore district administration should have all information about collection centres / call centres established by various producers in the District. Such information should be disseminated to public and local administration. Action plan for E-Waste management should cover the aspects of inventory, collection centres for e-waste channelization, linkage with Producers of their PROS, linkage with recyclers, information of bulk waste generators and effective EPR verification by SPCBs. Action plan need not be prepared in Tabular form. SPCBs/PCC should be part of action plan. Action plan may dwell upon other relevant action points not mentioned in above template.

# **3.0**

# **AIR QUALITY MANAGEMENT**

### 3.0 Air Quality Management

#### a. Current Status related to Air Quality Management

Details of Data Requirement	Present Status
Number of Automatic Air Quality monitoring stations in the district. - Operated by SPCB / State Govt / Central govt./PSU agency: - Operated by Industry:	<b>01 CAAQMS established by UPPCB and operated by PSU.</b>
Number of manual monitoring stations operated by SPCBs	<b>02 manual air monitoring stations are currently operational in Muzaffarnagar main city.</b> <b>1. Roof of R.O. UPPCB, Muzaffarnagar</b> <b>2. Roof of Lekhpal Bhawan, Tehsil Sadar, Muzaffarnagar</b>
Name of towns/cities which are failing to comply with national ambient air quality stations	<b>Muzaffarnagar</b>
No. of air pollution industries	128
Prominent air polluting sources [Large Industry] / [Small Industry] / [Unpaved Roads] / [Burning of Waste Stubble] / [Brick Kiln] / [Industrial Estate] / [Others] (Multiple selection)	Large and Small industries, Industrial Estate, Brick Kilns, Jaggery Kolhus, Unpaved Roads

S.No.	Action points	Indicative Action Plan	Action Plan			Responsible agency	Timeline for completion of action plan
			Action Point	Budget Required (in Lakhs)	Budget Available (in Lakhs)		
1.	Identification of prominent air polluting sources?	Regular inspection of industry carried out on a regular basis by R.O. UPPCB	2 air pollution hotspots identified	Not Required	N.A.	SPCB/Development Authority/ULB	Completed

			ed				
2.	AmbientAirquality data?	Plant to get access to available air quality monitoring station in Distt. Muzaffarnagar operated by both Public and Private agencies.	Air monitoring data is complied by UPP CB Muza ffarna gar time to time	Not Required	N.A.	SPCB/UL B	Regul arBasi s/Com pling
3.	Setting up of ContinuousAmbi entAirQualityMo nitoringStation	01 Automatic Air Qualitymonitor ing station	Manu al monit oring is regul arly carrei d out as per sched ule in GRA P and 1 CAA QMS is install ed and also conne cted to CPC B server	Not Required	N.A.	UPPCB	Regul arBasi s/Com pling

4.	DistrictLevelActionPlanforAirPollution	Action plan should be prepared for both improvement of existing air quality as well as for non attainment days to national ambient air quality standard.	Action plan has been preparing	Not Required	N.A.	SPCB/Development Authority/ULB	Complying <a href="#">Update timeline also.</a>
5.	HotspotsofairpollutioninDistrict	Hotspot with respect to air pollution should be prepared for local air quality in towns and cities located in District may considered developing mobile app/online portal for air quality.	Identified of air pollution hotspot work is in progress	Required	N.A.	SPCB/Development Authority/ULB	Complying <a href="#">Update timeline also</a>
6.	AwarenessonAir Quality	Trainingprogramwith stakeholders	Regular awareness campaign conducted by R.O. Muzaffarnagar UPPCB under supervision of Regional Officer	Not Required	N.A.	SPCB/Dept. of Industries	Complying (Same App is developed by CPCB already in work)

			as well as Assista nt Enviro nment Engine ers.				
--	--	--	---	--	--	--	--

[The district administration is expected know the air quality in the district, identify air polluting sources both industrial and urban area sources and shall monitor mitigation measures and compliance of air polluting sources. District level air quality management plan is necessary to monitor and implement programs for improving air quality in the district. Action plans prepared for 100+ non-attainment cities

under NCAP project initiated by MoEF&CC may be referred for drawing district action plan. Action plan need not be prepared in Tabular form. SPCBs/PCC may be part of action plan for control of industrial air pollution. Action plan may dwell upon other relevant action points which are not mentioned in above template.]

**b. Identification of gaps and action plan for water quality monitoring:**

S. No.	Action points	Identification of Gaps and Action Plan	Action Plan			Responsible agency	Timeline for completion of action plan
			Action Point	Budget Required (in Lakhs)	Budget Available (in Lakhs)		
1.	Inventory of water bodies	No gap	Monitoring of River Hindon, River Kali West is done on a monthly basis frequency and 13 (10 untapped + 3 partially tapped) drains, 32.5 MLD STP, Shukratal Ghat are also done on a weekly frequency by Regional Office Muzaffarnagar UPPCB	Not Required	N.A.	UPPCB	Complying
2.	Quality of water bodies in the district	Monitoring of quality of water surface water bodies is being conducted by SPC Bunder NWMPP Project.	NA	Not Required	N.A.	UPPCB	Monitoring of Upstream as well as downstream of River Hindon, Kali West, Shukratal Ghat are conducting by R.O. Muzaffarna

							gar UPPCB time to time.
3.	Hotspots of water contamination	Inventory is to be finalized(Trendsof water quality and identify hotspotof surface water and ground water.Establish a system or separate cell tomonitorwaterquality.I mplementationpointsfo rrestorationofwater qualityinassociationwit hSPCBsand departmentofenvironme nt).	NA	Not Required	N.A.	UPPCB	Monitoring of upstream point as well as downstre am point of river Hindon, Kali West, Shukratal Ghat, 13 drains (10 untapped +3 partially tapped) are inspected monthly, fortnightly, weekly respectively done.
4.	Protection of river/lakewaterfr ont	Action plan should be prepared forcontrolriversideopen defecation,dumpingofS olidwasteonriver banks, foridolimmersionetc.	NA	Not Required	N.A.	UPPCB	31 <sup>st</sup> December 2024
5.	Inventory of sources of water pollution	Inventoryofallsewagean dwastewaterdischargep ointsintowaterbodiesint hedistrict.Action plantocompleteinventor y	A 32.5 MLD STP are functional for sewage water in Distt. Muzaffarn agar	Not Required	N.A.	UPPCB	Completed
6.	Oil spill disaster management (for coastal districts)	NA	NA	Not Required	N.A.	None	None
7.	Protectionoffloo dplains	Regulationforprotection offloodplainencroachm ent?Actionplanshouldbe preparedforprotectionfl oodplainandpreventiono fencroachment.	--	Not Required	N.A.	Irrigation Departme nt	--

8.	Rejuvenation of groundwater	Availability of groundwater and if required prepare action plan to rejuvenate ground water in selected areas. Action plans should be prepared for Rainwater harvesting	UP ground water deptt. has imposed a condition for installation of Roof top rain water harvesting system in	Not Required	N.A.	U.P. Ground Water Department	31 <sup>st</sup> December 2023
9.	Complaints redressal system	Complaint redressal system based on Mobile App / Online should be available at district level	Distt Magistrate Muzaffargarh developed a complaint Distt. War Room helpline number - 9897749888	Not Required	N.A.	UPPCB/ Distt. Administration	Via Whatsapp messaging/ calling activity

## POLLUTION CONTROL BOARD, MUZAFFARNAGAR

### 4.2 Domestic Sewage

#### a. Identification of gaps and action plan for treatment of domestic sewage

Detail of Data Requirement	Present Status
No of Class-II towns and above	Nil
No of Class-I towns and above	Nil
No of Towns STPs installed	01
No of Towns needing STPs	02
No of ULBs having partial underground sewerage network	01
No of towns not having sewerage network	09
Total Quantity of Sewage generated in District from Class II cities and above	80 MLD
Quantity of treated sewage flowing into Rivers (directly or indirectly)	32.5 MLD
Quantity of untreated or partially treated sewage (directly or indirectly)	47.5 MLD
Quantity of sewage flowing into lakes	Nil
Total available Treatment Capacity	32.5 MLD

#### b. Identification of gaps and action plan for treatment of domestic sewage:

S. No.	Action points	Gaps and Action Plan	Action Plan			Responsible agency	Timeline for completion of action plan
			Action point	Budget Required (in Lakhs)	Budget Available (in Lakhs)		
1.	Sewage Treatment (STPs)	STP capacity is not adequate for treatment of total raw sewage generated by city.	32.5 MLD and 22 Capacity STP plants are proposed for Sewage generation	Not Required	N.A.	UP Jal Nigam	30 <sup>th</sup> June 2023

			ted from Muzaffar nagar Town. 10MLD Capacity STPplant is proposed forSewa gegenera ted from Budhana Town				
2.	Underground sewerage network	Partial undergroundse weragenetwork in Muzaffarnagar Town	NA	Not Required	N.A.	JalNigam	--

[Action plan for installing new /up-grading sewage treatment and laying of sewerage network is the mandate of local bodies, being cost intensive action points, the district administration may draw action points in consultation with ULBs and Urban development department. Action plan need not beprepared in Tabular form. ULBs, SPCBs/PCC and UDD may be part of action plan for collection and treatment of sewage. Action plan may also dwell upon other relevant action points which are not mentioned in above template.]

# **7.0**

## **NOISE POLLUTION MANAGEMENT PLAN**

## 7.0 Noise Pollution Management plan

### a. Current Status related to Noise Pollution Management

Detail of Data Requirement	Measurable Outcome
No. of noise measuring devices available with various agencies in district	<b>03 Nos. of Noise Pollution Measuring Device is available in Regional Office, U.P. Pollution Control Board, Muzaffarnagar for both of district Muzaffarnagar and Shamli</b>

### b. Identification of gaps and action plan:

S. No.	Action points	Gaps and Action Plan	Action Plan			Responsibility agency	Timeline for completion of action plan
			Action Point	Budget Required (in Lakhs)	Budget Available (in Lakhs)		
1.	Availability of Sound/Noise Level Meters.	03 Sound/Noise Level Meters available in Regional Office, UPPCB, Muzaffarnagar	Regional Office Muzaffarnagar UPPCB already have 3 functional noise meter in possession and used for noise monitoring as required.	Not Required	N.A.	UPPCB	Regular manual noise monitoring of residential, commercial, industrial and sensitive zone is carried out by UPPCB R.O. Muzaffarnagar per schedule.
2.	Ambient Noise Level Monitoring	ULBs shall ensure that ambient sound levels comply with notified standards for residential, sensitive zones. An action. Apart from portable analyzers, fixed ambient noise level	There are zero numbers of automatic noise monitoring station in Distt. Muzaffarnagar	Not Required	N.A.	UPPCB	Regular manual noise monitoring of residential, commercial, industrial and sensitive zone is carried out by UPPCB R.O. Muzaffarnagar per schedule.

		vel monitoring stations may be installed in major cities and towns, such stations may be installed by ULBs and SPCB/PCC,					
3.	Signboards in Noise zones	District administration may ensure that adequate number of signboards are installed at sensitive zones in towns/cities in towns and cities. An action plan may be prepared by district authority.	NA	Not Required	N.A.	UPPCB/ Distt Administration	May be adequate number of sign boards installed at sensitive zone.
4.	Complaint redressing system	Public complaint redressal system for noise pollution. Such application may be used by SHOs, Traffic police ULBs and SPCBs in the district.	NA	Not Required	N.A.	District Administration/Police Department/SPCB/ULB	NA

[ District administration may ensure that concerned agencies responsible for control of noise pollution are equipped with adequate number of noise level meters. There should be a system to monitor ambient sound levels to ensure that national ambient noise standards are complied with. Action plan may be implemented through responsible agencies namely SHOs, Traffic police ULBs and SPCBs. Action plan need not be prepared in Tabular form. Action plan may also dwell upon other relevant action points which are not mentioned in above template.]
