1.0 District Profile

Origin

Bijnor district was created in 1817 out of part of Moradabad district, and it was originally called Naginadistrict after its headquarters at Nagina. The headquarters was relocated to Bijnor in 1824, although the district was still called "Nagina district" until 1837, when it officially became known as Bijnor district.

Area & Geography

Bijnor occupies the north-west corner of the Moradabad Division (historically, Rohilkhand or Bareilly region), and is a roughly triangular stretch of country with its apex to the north. The western boundary is formed throughout by the deep stream of the river Ganges, beyond which lie the 04 districts of U.P., Muzaffarnagar, Meerut, Amroha & Moradabad.

The district consists of 2519 villages, 5 tehsils, 11 blocks & 10 police stations. Its geographical area is 4,561 sqkm. The extreme parallels of north latitude are 29° 2' and 29° 58' and of east longitude 78° 0' and 78° 57' from Lalitpur, in the north of the district lies district Haridwar, district Amroha is in the south and in the west are situated districts Muzaffarnagar, Meerut. Ganga river separates it from district Bijnor. The main ghat of the district is Bairaj Ghat. The forest area of the district is about 54927 hectares.

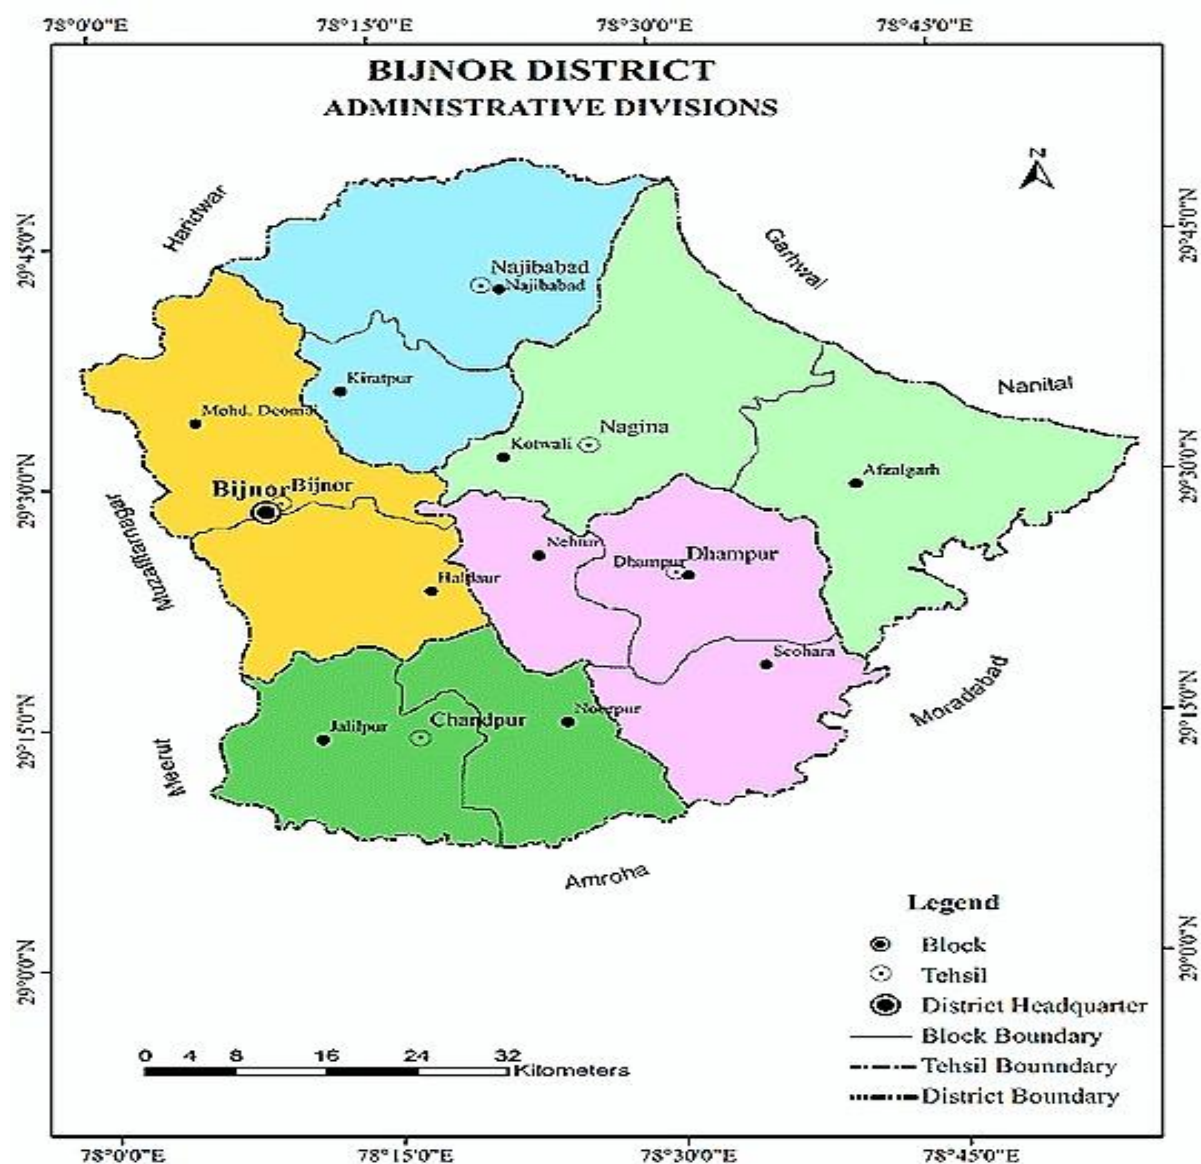

Main Occupation

The majority of the population of the district depends on agriculture, cane production. There are 09 sugar industries, 07 distillery units and 04 paper units situated in the district.

Climate & Rivers

The climate of the district is similar to other districts of the state situated at the base of Himalaya which becomes hot in summer and dry & cold in winter. Ganga and Ramganga are the main rivers of the district and Malan, Gagan, Kho are rainy rivers which ultimately meet river Ganga.

a. District Administrative Set-up

Administration

This district is one of the five districts,that come under Moradabad division.

Functions Of District Magistrate / Collector

District is the main unit of the state. The District Magistrate/Collector is the administrator of the district. The most important work of the district magistrate is to maintain law and order, implementation of various rules and govt. orders. Being a top administrator of the district, he directly orders the police department whenever required. He is also responsible to maintain peace and justice in the district.

For planning purpose district is divided into Blocks. There are eleven (11) blocks. In Bijnor district, Block Development Officer is the in-charge of the block. B.D.O. monitors the implementation of all the programs related to planning and development of the blocks. To make the co-ordination in the development work and for implementation of various schemes at various blocks, there is an officer i.e., Chief Development Officer.

District Environment Plan for District Bijnor (U.P.)

To maintain the general administration of the district there is one additional district magistrate and four sub-divisional magistrates for the assistance of district magistrate.

S.No.	Post
1.	Additional District Magistrate (Finance & Revenue)
2.	Additional District Magistrate (admin)
3.	SDM – Sadar
4.	SDM – Chandpur
5.	SDM – Dhampur
6.	SDM – Najibabad
7.	SDM- Nagina

According to general and revenue administration, Bijnor is divided into Five sub divisions Sadar(Bijnor), Chandpur,Dhampur, Najibabad, Nagina. The area of each subdivision includes the area of each tehsil. Every tehsil comes under S.D.M., a class one magistrate of general administration and acts as an assistant collector for revenue administration. Also, there is one Tehsildar in each tehsil who is assisted by additional Tehsildar, Nayab Tehsildar (for each pargana). Tehsildar acts as 2nd-class magistrate for his tehsil and helps Assistant Collector (S.D.M.) for running the revenue administration properly. Tehsildar works as an officer in-charge for its tehsil office and revenue court. His work mainly includes collection of all dues, maintenance of land records, disposal of revenue cases and welfare of general public. Tehsildar is also in-charge of sub treasury office located in his tehsil.For better administration tehsils are segmented in paragnas. Each pargana is headed by a Nayab Tehsildar. He is assisted by Kanoongo and Lekhpals.

b.NaturalResources

▪ **Waterbodies**

Ganga and Ramganga are the main rivers of the district and Malan, Gagan, Kho are rainy rivers which ultimately meetriver Ganga and Ramganga.

District Environment Plan for District Bijnor (U.P.)

▪ **Availability of waterresources**

The main availability of the water resource is ground water. As per the CGWA ground water survey report 2017, the 2 blocks namely, Jalilpur and Noorpur are notified under the overexploited zone.

▪ **Forestcoverage**

The forest area of the district is about 54927 hectares.

c. Geography &Demography

Description	Rural	Urban
Population (%)	74.87 %	25.13 %
Total Population	2,757,401	925,312

Male Child Percentage	15.86 %	14.82 %
Female Child Percentage	15.18 %	14.55 %
Literates	1,596,174	539,219

District Environment Plan for District Bijnor (U.P.)

Description	Rural	Urban
Male Literates	942,936	298,535
Female Literates	653,238	240,684
Average Literacy	68.53 %	68.31 %
Male Literacy	77.91 %	72.59 %
Female Literacy	58.39 %	63.65 %

d. Land-usepattern

The forest area of the district is about 54927 hectares. The detail of agricultural and irrigated area is given below:

Number of Tehsils	Total Number of Village	Total Area (In Sq. Km.)	Net Agricultural Land (In Hec.)	Net Irrigated Area (In Hec.)
5	2519	4561	339349	297677

e.Climature

The climate of the district is similar to other districts of the state situated at the base of Himalaya which becomes hot in summer and dry & cold in winter. Ganga and Ramganga are the main rivers of the district and Malan, Gagan, Kho are rainy rivers which ultimately meet river Ganga and Ramganga.

In Bijnor, the wet season is hot, oppressive, and partly cloudy and the dry season is warm and mostly clear. Over the course of the year, the temperature typically varies from 9°C to 39°C and is rarely below 6°C or above 42°C. Average annual precipitation is 284.5 mm.

2.0 Indicative Gap Analysis and Action Plans for complying with Waste Management Rules

(i) Solid Waste Management

a. Current status related to solid Wastemanagement

Urban Local bodies	No of Wards	No of Households	Population (in Lacs)	Solid Waste Generated per day

(ii) Plastic waste Management

(a) Current status related to Plastic waste management

	Urban Local bodies	Estimated quantity of Plastic Waste Generated per day
1	Municipal corporations (Nagar Nigam or Mahanagar Palika)	Nil

District Environment Plan for District Bijnor (U.P.)

2	Municipalities (Nagar Palikas)	15.36 MTD (Approx)
3	Nagar panchayats (Town area Councils)	2.47 MTD (Approx)

	Local Bodies	Plastic Waste Generated per day
2	Block /Taluk / Mandal Tehsils	6.53 MTD
3	Village/Gram Panchayats	(Approx)

(b) Identification of gaps and Actionplan:

				Action Plan			
S. N o.	Responsible agencies	Action points For villages / blocks/ town municipalities / City Corporations (Identification of gap	Action Point	Budget required	Budget Available	Timeline for completion of action plan
(1)		Door to Door collection of dry waste including PW	[100%] / [partial %] / [not initiated]	If not 100 %, action plan for door to door collection of SW			
(2)	Identify agencies at local and district level to implement and monitor progress respectively	Facilitate organised collection of PW at Waste transfer point or Material Recovery Facility	<p>This infrastructure is linked to SW management. May check gaps with respect to:</p> <ul style="list-style-type: none"> • Availability of transfer points and material recovery facility • Involvement of informal sector / NGO. • Registering wastepickers • Linkage with PW recyclers <p>Involvement of producers and brand-owners</p>	Within the district outline specific plans for Each village panchayat/block/ municipality/ Nagar panchayat / Corporations for plastic waste collection			
(3)		PW collection Centres	Local Bodies may set-up own centres and also involve producers and brand-owners or their PROs to facilitate setting up of collection centres.	Plastic waste collection centre should be established in adequate numbers. Coordination with State Urban Department may be necessary			
(4)		Awareness and education programs implementation	Review existing gaps in creating awareness among public for minimising and recycling PW	Education through mass media, schools, Producer / brand owner campaigns and other channels			

District Environment Plan for District Bijnor (U.P.)

(5)		Access to Plastic Waste Disposal Facilities	Check if District has access to PW recycling / utilization or disposal facilities..	Check if PW recycling facilities available at reasonable distance; Channel for sending PW collected to cement plants for processing; Availability of waste plastic oil producing facilities; Linkage with PWD for usage of PW in road making. Action plan at district should involve Urban and Rural Local bodies

(v) Hazardous Waste Management

a. Current Status related to Hazardous Waste Management

Details of Data Requirement	Present Status
No of Industries generating HW	Nos. 15
Quantity of HW in the district	1371.60MT/Annum
(i) Quantity of Incinerable HW	23.00MT/Annum
(ii) Quantity of land-fillable HW	0
(iii) Quantity of Recyclable / utilizable HW	Recyclable -28.60 MT/Annum and Utilizable-1320.0
No of captive/common TSDF	Hazardous waste generating Industries are linked with common TSDF Kanpur and Ghaziabad.
Contaminated Sites or probable contaminated sites	Village-Jalilpur Chhoyia, Bijnor is a probable contaminated site.

b. Identification of gaps and action Plan:

District Environment Plan for District Bijnor (U.P.)

S. No.	Responsible agency	Action points	Identification of Gaps	Action Plan			Timeline for completion of action plan
				Action Points	Budget Required	Budget Available	
1.	Nagar Palika Parishad Bijnor	Regulation of industries and facilities generating Hazardous Waste	all hazardous waste industries are identified and authorized by SPCBs/PCCS	all hazardous waste Industries are authorized and a system of safe disposal is in place.	NA	NA	100% achieved
		Establishment	yes ,district has collection centers for hazardous wastes with linkage to common TSDFs / recyclers	adequate number of collection centers are established and are linked to Common TSDFs.	NA	NA	100% achieved
		Training of workers involved in handling / recycling / disposal of HW	No facilities / industries engaged in recycling / pre-processing / disposal of hazardous waste in the district.	Training are being organized for workers	NA	NA	completed
		Availability / Linkage with common TSDF or disposal facility	yes generators of HW have access to common TSDF in the State?	all generator are linked to TSDF	NA	NA	completed
		Contaminated Sites	Village-JalilpurChhoya, Bijnor is a probable contaminated site.	03 number underground water sample and 09 no. soil sample have been collected by regional office uppcb, bijnor from probable contaminated	NA	NA	Not applicable

4.0 Water Quality Monitoring

a. Current Status related to Water Quality Management

Details of Data Requirement	Present Status
Rivers	Ganga, Ram Ganga, Malan, Gagan
Length of Coastline (if any)	None
Nalas/ Drains/Creeks meeting Rivers	Hemraj Drain, Nasiya Drain, Ekra Drain, Chhoiya Drain.

District Environment Plan for District Bijnor (U.P.)

Lakes / Ponds	468 Number
Total Quantity of sewage from towns and cities in District	91 MLD
Quantity of industrial wastewater	16.82 MLD
Percentage of untreated sewage	73%
Details of bore wells and number of permissions given for extraction of groundwater	Nos
Groundwater polluted areas if any	None
Polluted river stretches if any	None

b. Identification of gaps and action plan for water quality monitoring:

S. No.	Responsible agency	Action points	Gaps and Action Plan	Budget Required	Budget available	Timeline for completion of action plan
1.	Nagar Palika Parishad Bijnor	Inventory of water bodies	An environmental monitoring cell is maintaining data of all water bodies in district including its water quality	NA	NA	completed
		Quality of water bodies in the district	district level monitoring cell for periodic monitoring of water bodies for specific parameters in association with SPCBs is working. information pertaining to water quality in the form of hoardings on river banks, official websites are being placed	NA	NA	Under process March 2023
		Hotspots of water contamination	there is no hotspot of contamination	NA	NA	Not applicable
		Protection of river / lake water front	Nallah Discharge after treated	NA	NA	Not applicable
		Inventory of sources of water pollution	inventory of all sewage and waste water discharge points is being done.	NA	NA	Not applicable
		Oils spill disaster management (for coastal districts)	not applicable	NA	NA	Not applicable

District Environment Plan for District Bijoor (U.P.)

		Protection of flood plains	not applicable	NA	NA	Not applicable
		Rejuvenation	Action planis being prepared for Rain water harvesting	15 LAC	NA	Not applicable
		Complaints	complaints can be registered at spcb website	NA	NA	Not applicable
2	Nagar Palika Parishad Chandpur	Inventory of water bodies	An environmental monitoring cell is maintaining data of all water bodies in district including its water quality	NA	NA	completed
		Quality of water bodies in the district	district level monitoring cell for periodic monitoring of water bodies for specific parameters in association with SPCBs is working. information pertaining to water quality in the form of hoardings on river banks, official websites are being placed	NA	NA	Not applicable
		Hotspots of water contamination	there is no hotspot of contamination	NA	NA	Not applicable

4.1 Domestic Sewage

a. Current status related to Domestic Waste

Detail of Data Requirement	Present Status
No of Class-II towns and above	26
No of Class-I towns and above	Nil
No of Towns STPs installed	01
No of Towns needing STPs	25
No of ULBs having partial underground sewerage network	01
No of towns not having sewerage network	25
Total Quantity of Sewage generated in District from Class II cities and above	91 MLD (Approx)
Quantity of treated sewage flowing into Rivers (directly or indirectly)	24 MLD
Quantity of untreated or partially treated sewage (directly or indirectly)	67 MLD (Approx)
Quantity of sewage flowing into lakes	Nil
Total available Treatment Capacity	24 MLD

b. Identification of gaps and action plan for treatment of domestic sewage

			Action plan			
S. No.	Responsible agencies	Action points For villages / blocks/ town municipalities / City Corporations	Identification of gap	Budget Required	Budget Available	Timeline for completion of action plan
a)	Nagar Palika Parishad Bijnor	24 MLD Sewage treatment plant installed.	0%	NA	NA	completed
		82 Km Underground sewerage network		NA	NA	completed
b)	Nagar Palika Parishad Chandpur	At present there is no STP in Nagar Palika Parishad,	100% Gap Action plan is being prepared for setting up	NA	NA	Not applicable

District Environment Plan for District Bijnor (U.P.)

		Chandpur.	STP.			
		There is no underground sewerage network	100% Gap Action plan is being prepared.	NA	NA	Not applicable
c)	Nagar Palika Parishad Najibabad	At present there is no STP in Nagar Palika Parishad, Najibabad.	100% Gap	NA	NA	Not applicable
		There is no underground sewerage network	100% Gap	NA	NA	Not applicable
d)	Nagar Palika Parishad Dhampur	At present there is no STP in Nagar Palika Parishad, Dhampur.	100% Gap	NA	NA	Not applicable
		There is no underground sewerage network	100% gap	NA	NA	Not applicable
e)	Nagar Palika Parishad Seohara	At present there is no STP in Nagar Palika Parishad, Seohara.	100% Gap Action plan is being prepared for setting up STP.	NA	NA	Not applicable
		There is no underground sewerage network	100% Gap Action plan is being prepared.	NA	NA	Not applicable
f)	Nagar Palika Parishad Haldaur	At present there is no STP in Nagar Palika Parishad, Haldaur.	100% Gap Action plan is being prepared for setting up STP.	NA	NA	Not applicable
		There is no underground sewerage network	100% Gap Action plan is being prepared.	NA	NA	Not applicable
