HISTORICAL OUTLINE

During the 12th century, Prithviraj Chauhan, Delhi's last Hindu ruler is said to have engaged in two fierce battles here which were both fought against Ghazi Sayyad Salar Masud, who was the nephew of the ruler of the Ghazni empire-Mahmud Ghazni. Chauhan gained victory over the latter in the first war and vice versa is said to have occurred in the second war. There nevertheless is no circumstantial evidence to prove the same and is widely regarded as a legend.

Qutub-ud-din Aibak, the first Muslim sultan of Delhi, seized Sambhal and included it under his empire. That was in the early 14th Century and subsequently, Firoz Shah Tughlaq, another sultan of Delhi, raided the town of Sambhal as one of the Hindu rulers from there was responsible for the killing of several of his men. He, therefore, administered a Muslim rule in Sambhal to try and vanquish all of the Hindu ruler's forces and enslave him for the rest of his life.

c. Natural Resources

Water Bodies: Details of river systems and tributaries

The Ganga river is the longest river which flows toward South of the Sambhal district. Only some blocks, Rajpura, Gunnuar and Janawai have benefited because of nearest of the Ganga river but their ground water level also fluctuates for the use of agricultural, domestic and industrial purposes.

Availability of water resources

Beside the above water source, there are at least 98 water bodies identified by Remote Sensing Application Centre, Lucknow. Out of these 34 has been identified as per Ramsar Convention and report sent to UPPCB for further action.

Forest Coverage

National Forest Policy, 1988 envisages minimum of 33% of geographical area under forest and tree cover. In continuation, section-2,4 of State Forest Policy 2017 of Uttar Pradesh provide for increase in greenery by promoting plantation as mass movement by engaging different sections of society as students, ladies, farmers, differently able persons, ex army men, BPL families and forest dependent communities.

Sambhal is home to diverse flora and fauna and many species of national and international importance are found here. Black buck, Saras, Gharial, Crocodiles and Gangetic Dolphins are among major attractions.

According to India State of Forest Report-2019, the forest cover of Uttar Pradesh is 14,805.65 square kilometers which is 6.15% of state's geographical area. In terms of forest canopy density classes, the state has 2616.43 sq kms under very dense forest (VDF), 4080.04 sq kms under moderately dense forest (MDF) and 8109.18 sq kms under Open Forest (OF). Forest cover in the state has increased by 126.65 sq kms as compared to the previous assessment report (2017).

To achieve the goals envisaged in the State Forest Policy, 2019 ; Government Order No 881/81- 5/2019-03/2019 dated 21st November, 2019 has allotted targets of plantation to different departments for the year 2020-21, 2021-22 and 2022-23. 17.98 lakh plants were planted during 2020-21 against the target of 17.66 lakh. Out of this, 2.74 lakh saplings were planted by Forest Department while 15.24 lakh saplings were planted by Other Departments. 23.58 lakh plants were planted during 2021-22 against the target of 22.43 lakh. Out of this, 3.34 lakh saplings were planted by Forest Department while 20.24 lakh saplings were planted by Other Departments.

S.No.	Department	Year 2021-22	Year 2022-23
1	Forest Department	333000	580482
2	Other Departments	1910243	2176454
	Total	2243243	2756936

DPC continuously monitors the health of plantations done by cross department checking. Third party monitoring by Forest Survey of India was carried out for the plantations done in 2019-20.
